Need simple
and direct help
for a common
condition?

Think **Pharmacy First** to skip the wait

**Pharmacy First makes it easier to get help at
your local pharmacy.**

Pharmacists can give you some prescription medicines for certain health problems, so you may not need to see your doctor.

Next time you are unwell with a common condition, think Pharmacy First for quick and convenient help at your local pharmacy.

Which conditions can Pharmacy First help with?

With Pharmacy First, you can get prescription-only medicines and advice for seven common conditions from your pharmacy:

Earache (1-17 years)

Symptoms could include painful ears, loss of hearing, high temperature and redness

Impetigo (1 year and over)

Symptoms could include red sores or blisters on skin

Infected insect bites or stings (1 year and over)

Symptoms could include pain and a small lump where you were bitten or stung

Shingles (18 years and over)

Symptoms could include tingling or painful skin and a headache

Sinusitis (12 years and over)

Symptoms could include a blocked or runny nose, high temperature and a reduced sense of smell

Sore throat (5 years and over)

Symptoms could include pain and difficulty swallowing

Urinary tract infection (Women 16-64 years)

Symptoms could include pain or burning when you pee and feeling tired or weak

Your age or health history may affect if this service is right for you. Your pharmacy team can help you choose the best service for your health. Speak to your local pharmacy team to find out more.
