

Integrated Care System

Shropshire, Telford and Wrekin

Community Diagnostic Centre

June 2023

Update

- Work on Shropshire's first Community Diagnostic Centre (CDC) is close to completion
- The centre will ready to open for patients later this year.
- It will open in three phases, with phase one expected to open in the autumn.
- When fully operational, the CDC will offer a range of services including CT, Ultrasound, X-Ray, MRI, ECG, Echocardiograms, blood tests, lung functioning tests and basic sleep studies.
- It will be sited at Hollinswood House in Telford, along with the renal dialysis service which is moving from the Princess Royal Hospital shortly after the CDC opens.

What it looks like now
