Your opportunity to share views on the Shrewsbury Health and Wellbeing Hub

Dear XXX,

We are contacting you today on behalf of NHS Shropshire, Telford and Wrekin who want to hear your views on a proposal to create a state-of-the-art health and wellbeing hub for communities in Shrewsbury.

The following community engagement exercise is targeted to those whose views have been heard less in previous engagement activity, and are specifically for the following groups:

- Young people (16-24)
- Elderly people and in particular those 80+
- Males
- LGBT+
- Ethnic minority groups
- Disability groups
- Expectant and new parents

**How you can help:**

For the chance to share your important views, NHS Shropshire, Telford and Wrekin will be holding online and face-to-face focus groups, as well as attending numerous community meetings across the town. These will take place over the coming months. They want to be flexible in their approach and will be happy to discuss how best to hear your views.

All feedback provided during these sessions will be reported on and will feed into the work of the Programme Team responsible for developing the proposal.

If you would like to get involved, please contact Sara Buckley at [stw.getinvolved@nhs.net](mailto:stw.getinvolved@nhs.net) to discuss and plan your involvement.

Further details about the Shrewsbury Health and Wellbeing Hub can be found on the [NHS Shropshire, Telford and Wrekin website](#).

Kind regards,  
xxx
