Join our **Big Conversation**

Help us improve health and care services

Big Health
& Wellbeing
Conversation

We are developing our plans for the future.

We want to develop our plans in partnership with you.

Between March and May 2023, we will be holding a number of community listening events, and we would love you to join us and share your views.

We want to understand what is affecting your health and wellbeing, and what things would make the biggest difference to improve your experience of local health and care services.

Your feedback will help us improve services and the wellbeing of local people.

To find out what is happening in your local area, visit: www.nhsbigconversation.org

Or call our helpline on **0333 150 3069** and the team can support with registering for an event.

You can also share your feedback to our early plans between **3rd April – 31st May 2023**.

Your voice matters... Be heard!

Join our **People's Network**, an online community of local residents, and have your say about health and care services.

We want people of all ages, genders, ethnicities and backgrounds from across Shropshire, Telford and Wrekin to join our network.

Our People's Network will mostly take place online, but there will be opportunities for face-to-face sessions too.

The network will help us gather feedback on what we do well, what really matters to you, your family and your community and what improvements could be made to local services.

To find out more and join our People's Network visit:
